Core Technology Solutions

Electronic Imaging & Configuration (EIC) Services

ACCELERATE SYSTEM DEPLOYMENT WITH CTS' EIC SERVICES

Your technology solution is an investment in productivity & network access. While PC's and electronics have been designed to be an extension of your personnel; Core Technology Solutions has designed an imaging program to be an extension of your engineering staff.

DOA TESTING	NETWORK CONFIG	DRIVER LOADING	BLOATWARE REMOVAL	LOGISTICS PLANNING

We eliminate the need to image new systems desk-side or at a staging area within your facility. With our EIC processes there are no unit minimums and we load your image in a matter of days. Don't have new product end up "half-baked". CTS will deliver OS images, device configurations, bloatware removal, and content pushes. Whether it is a PC, router or digital signage solution, your products will end up fully prepped and ready for use.
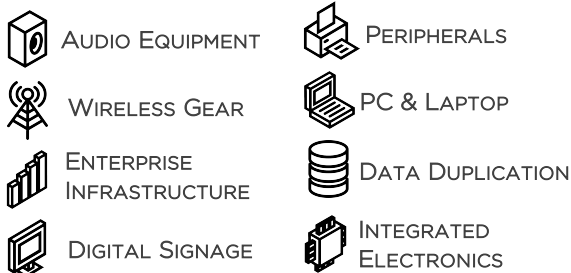

WE PREVENT.

✘ Receiving DOA gear onsite
✘ Complex imaging processes or toolsets
✘ Setting up gear onsite, adding additional expense to deployment
✘ Custom, handcrafted, configurations that cannot be replicated
✘ "Half-Baked" deployment resulting in costly revisits.

WE ENSURE.

✓ Factory delivered configuration that works in any quantity or scale
✓ Quick turnaround for custom or dynamic images, allowing cross-platform delivery
✓ Speedy and properly licensed product delivery
✓ Integrated results that fit into your existing environment
✓ Properly documented asset tagging that meets your needs

TYPES OF TECHNOLOGY ABSORBED

- Audio Equipment
- Wireless Gear
- Enterprise Infrastructure
- Digital Signage
- Peripherals
- PC & Laptop
- Data Duplication
- Integrated Electronics
